About:

This is a choose-your-own-adventure party game with a twist!

In this light and casual card game, players take turns picking travel adventures around the world. Depending on your globe-trotting journey, you and your team either earn points to win... or pay the consequences.

The twist? Consequence cards can change your travel plans. This could result in players losing points, players sipping their drink, or players challenging the other team in contest rounds. Players can even add their own unique party rules to add their own twists to the game.

Participants can choose to play while enjoying whatever beverage they prefer, or just play the game on its own.

This game is our take on a classic party game, so it is very light and casual with mild competitive themes. It's not a puzzle game like our previous releases -- this is a casual party game to play with friends.

Bonus:

If you solved the extension puzzle for our previous game, The Z-Files Episode 1, you can enter the secret code in the comments section of your checkout. We will upgrade you to the PREMIUM edition free of charge, with some extra exclusive stuff!

Due to logistical issues with Canada Post and our other providers, we may not be able to guarantee shipping times outside Ontario for March 17th, but we will try our very best to make sure it arrives on time.

Orders for local delivery and pickup will be delivered on time.

Small-Batch Moonshine Blend

Inspired by a classic Irish recipe, and determined to offer something different, our Irish cream Moonshine consists of an incredible small-batch blend of moonshine and Ontario cream.

How to Drink Our Irish Cream Moonshine

Fantastic on the rocks, an ice-cold glass of Irish Cream Moonshine is a slice of luxury in your hand. This liquid gold is also praised for its taste and richness in coffee.

Why People Love Our Irish Cream Moonshine

Lovers of our Irish Cream Moonshine repurchase it often, even publicly choosing it over world leaders in Irish cream products. Reunion Irish Cream Moonshine packs 25% alcohol, a broad flavour profile, and a rich, smooth taste. Our Ontario small-batch blend simply does not compare to other products on the market.

Although many have begun doubling up on this craft moonshine because of its fantastic taste in coffee, this Reunion Moonshine is also excellent in cake and custard desserts! When you buy this product, you are also supporting a local organization. The act of supporting local businesses is becoming increasingly important during this pandemic.

The Top Shelf Experience

We at Top Shelf Distillers have created a new generation of Irish cream products. The richness of the fresh dairy cream, cocoa and vanilla, blended to perfection, creates a velvety almond experience that brings out the spirit in the finish. This small-batch Ontario moonshine wraps you like a warm blanket in the dead of winter. When we first conceived this moonshine recipe, we truly underestimated how much our audience was going to love it. This tried-and-true moonshine flavour profile encompasses delicate milk chocolate, soft coffee flavour and a gentle nutty edge.

Our Canadian Moonshine Mission

In these unprecedented times of the pandemic, our goal as a Canadian craft distillery consists of bringing everyone together by creating moments that unite people, regardless of physical distance, and for people to enjoy these sweet Canadian delights with us. The process of reuniting people is Reunion's strong suit.

2 x 2 oz branded whisky glasses

It's been a long wait, but it's finally here! Just in time for the holidays. We're so excited to share this batch of whisky with you!

Perth, Ontario has a deep and storied connection to Canadian whisky. European migration to Ontario brought a lot of new things with it but we consider whisky production to be the frontrunner.

With three distilleries in town in the late 19th and early 20th century, Perth was once a major hub for Ontario whisky. This changed with the introduction of the Ontario Temperance Act in 1916 which brought the prohibition of alcohol to the province and forced distillers to either close their doors or operate in secret.

A century later we are adding a new chapter to Perth's whisky history. On the 100th anniversary of the introduction of Temperance we barreled our first batches of Perth Canadian Whisky and bottled our first batch in 2019 at three years aged. Perth Canadian Whisky Batch #001, a Canadian rye whisky aged in first use american oak, was awarded gold in the young whisky category at the 2020 Canadian Artisan Spirits Competition.

We work with an excellent cooperage in Louisville, Kentucky that caters to craft distillers. We make trips down south frequently to buy barrels and speak with the team at Kelvin Cooperage about new ideas for aging and finishing our whisky. We've set our sights on finishing our next batch of three & ½ year whisky in an Oloroso Sherry cask. The fortitude of Canadian Whisky paired with the rich and sweet addition that comes with a sherry cask finish.

About:

This experience is for adults only (19+) and has mature themes.

Agents Wolf and Diana are CBI (Canadian Bureau of Investigation) officers haunted by an old cold case. For years, a murderer and hacker known as The Succubus terrorized unsuspecting victims. The few who survived have been left raving obsessively over her alluring, mysterious character. Some have even claimed her to be otherworldly or demonic.

In February, 1998, Wolf and Diana find themselves caught in The Succubus' next puzzling attack. The hacker has planted a bomb to detonate in the CBI headquarters in Perth, Ontario. By carefully working through the clues and exploring the dark secrets hidden in the PERTHNET computer system, can you stop The Succubus before it is too late?

THE Z FILES series is our first in mixed technology puzzle games. Each game features an assortment of printed puzzles and clues that work alongside a web-based game that guides the story towards its epic conclusion. This is our third experience, and it promises a more challenging puzzle than our previous offerings, [The Seance of Victoria Hall](#), and [Stuck in the Present](#).

This is an experience produced by Top Shelf Distillers and Midnight Society Games. This game will be our first to be re-giftable by printing and replacing used components.

Bonus:

If you solved the extension puzzle for our previous game, [Stuck in the Present](#), you can enter the secret code in the comments section of your checkout. We will upgrade you to the PREMIUM edition free of charge, with extra exclusive stuff!

- 1 x 750 ml OR 200 ml Reunion Butter Tart Moonshine
- 2, 4 or 6 x Mrs. Garrett's Butter Tart (wrapped in 2-packs)
- Packed & Boxed with care

Details:

Undeniably buttery and bursting with caramel flavours, our Ontario Reunion Butter Tart Moonshine has quickly become a local favourite and is now one of our most popular Ontario moonshines!

Since the early beginnings of our Ontario craft distillery, we at Top Shelf Distillers knew that moonshine heritage was an integral part of starting a craft distillery in Perth, near the Ottawa region.

We started with a traditionally un-aged whisky moonshine recipe from Eastern Ontario - a trusted method for over 100 years. But we also wanted to pay homage to some of the best ingredients of Lanark County, Ontario — corn and maple syrup. Enter our Ontario Reunion Maple Moonshine. The first unique flavour in our rapidly growing collection of local moonshine.

The Reunion brand has quickly become a local creative lab for our Ontario craft distillery, experimenting with ingredients local to Ontario and creating wonderful flavour profiles. In 2017, we perfected and launched our Ontario Butter Tart Moonshine, inspired by Ontario's Best Butter Tart Festival, in Midland. This event is the world's largest butter tart festival, featuring over 150,000 butter tarts, a Canadian tradition. The response to our new Ontario moonshine flavour from our local supporters was overwhelmingly positive, which prompted us to quickly make this delicious moonshine flavour a permanent addition to our seasonal drink lineup.

In the unprecedented times of the pandemic, our goal is to bring everyone closer together, to create moments that unite people, regardless of physical distance, and for people to enjoy these sweet Canadian delights with us.

We've partnered with Mrs. Garrett's Bake Shop, a small bakery out in Inverary, Ontario, known for its authentic take on this Canadian delicacy. What started as a small order of 500 butter tarts as a tasty treat to accompany our Ontario Butter Tart Moonshine has now grown to an order of 15,000 Ontario-local butter tarts.

This 37-year-old Ontario bakery has withstood the test of time, with core 3 members of their small but mighty team who have been there since its inception.

When we asked Mrs. Garrett's daughter if the bakery would be around for another 37 years, the response was a swift yes with "plans for the grandchildren to continue the Canadian baking tradition" in this little shop in South Frontenac Township, Ontario, where everything is made daily by hand – and with love!

Undeniably buttery and bursting with caramel flavours, our Ontario Reunion Butter Tart Moonshine has quickly become a local favourite and is now one of our most popular Ontario moonshines!

Since the early beginnings of our Ontario craft distillery, we at Top Shelf Distillers knew that moonshine heritage was an integral part of starting a craft distillery in Perth, near the Ottawa region.

We started with a traditionally un-aged whisky moonshine recipe from Eastern Ontario - a trusted method for over 100 years. But we also wanted to pay homage to some of the best ingredients of Lanark County, Ontario — corn and maple syrup. Enter our Ontario Reunion Maple Moonshine. The first unique flavour in our rapidly growing collection of local moonshine.

The Reunion brand has quickly become a local creative lab for our Ontario craft distillery, experimenting with ingredients local to Ontario and creating wonderful flavour profiles. In 2017, we perfected and launched our Ontario Butter Tart Moonshine, inspired by Ontario's Best Butter Tart Festival, in Midland. This event is the world's largest butter tart festival, featuring over 150,000 butter tarts, a Canadian tradition. The response to our new Ontario moonshine flavour from our local supporters was overwhelmingly positive, which prompted us to quickly make this delicious moonshine flavour a permanent addition to our seasonal drink lineup.

In the unprecedented times of the pandemic, our goal is to bring everyone closer together, to create moments that unite people, regardless of physical distance, and for people to enjoy these sweet Canadian delights with us.

We've partnered with Mrs. Garrett's Bake Shop, a small bakery out in Inverary, Ontario, known for its authentic take on this Canadian delicacy. What started as a small order of 500 butter tarts as a tasty treat to accompany our Ontario Butter Tart Moonshine has now grown to an order of 15,000 Ontario-local butter tarts.

This 37-year-old Ontario bakery has withstood the test of time, with core 3 members of their small but mighty team who have been there since its inception.

When we asked Mrs. Garrett's daughter if the bakery would be around for another 37 years, the response was a swift yes with "plans for the grandchildren to continue the Canadian baking tradition" in this little shop in South Frontenac Township, Ontario, where everything is made daily by hand – and with love!

Our exceptionally smooth, blended Canadian whisky marks the end of a 100-year drought.

For the first time in over a century, Canadian whisky has been mashed, distilled, barrel-aged and bottled in Perth, Ontario. We are incredibly proud to put Perth back on the list of Ontario's active whisky towns.

Smooth and full of character, our three-year aged, blended Canadian Whisky was crafted to honour the traditional Canadian Rye Whisky recipes that were once crafted in our heritage town.

Every bottle of Perth Canadian Whisky pays homage to our heritage town's 19th-century whisky pioneers. This is more than just whisky, this is legacy in a bottle.

2 x 2 oz branded whisky glasses

It's been a long wait, but it's finally here! Just in time for the holidays. We're so excited to share this batch of whisky with you!

Perth, Ontario has a deep and storied connection to Canadian whisky. European migration to Ontario brought a lot of new things with it but we consider whisky production to be the frontrunner.

With three distilleries in town in the late 19th and early 20th century, Perth was once a major hub for Ontario whisky. This changed with the introduction of the Ontario Temperance Act in 1916 which brought the prohibition of alcohol to the province and forced distillers to either close their doors or operate in secret.

A century later we are adding a new chapter to Perth's whisky history. On the 100th anniversary of the introduction of Temperance we barreled our first batches of Perth Canadian Whisky and bottled our first batch in 2019 at three years aged. Perth Canadian Whisky Batch #001, a Canadian rye whisky aged in first use american oak, was awarded gold in the young whisky category at the 2020 Canadian Artisan Spirits Competition.

We work with an excellent cooperage in Louisville, Kentucky that caters to craft distillers. We make trips down south frequently to buy barrels and speak with the team at Kelvin Cooperage about new ideas for aging and finishing our whisky. We've set our sights on finishing our next batch of three & ½ year whisky in an Oloroso Sherry cask. The fortitude of Canadian Whisky paired with the rich and sweet addition that comes with a sherry cask finish.
